

INFORMACIÓN ESTADÍSTICA SEMANAL

VARIABLES D									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)									
Operational performance indicators (values are relative to the base year 2007)
